CAUTION

KEEP OUT OF REACH OF CHILDREN

If in Eyes: Flush with plenty of water. Get medical attention if irritation persists.

If on Skin: Wash with plenty of soap and water.

GENERAL INFORMATION

KAN-7 v2.0 contains soy protein hydrolysate obtained by the hydrolysis of proteins to their constituent amino acids and short polypeptides.

KAN-7 v2.0 is believed to be compatible with most agricultural water-soluble plant nutritional or crop protection products. If physical compatibility with other products is unknown, use a jar compatibility test. Shake well before using.

KAN-7 v2.0 can be applied through your irrigation water and foliar application.

RECOMMENDED USE RATE:

In furrow, foliar, drip, flood irrigation, chemigation.

2 – 8 fluid ounces per acre per application.

Max 136 fluid ounces (4 liters) per acre per year.

Root dip

Dilute to 750 parts per million, apply two weeks prior to field transplant.

Seed Treatment

0.25 – 5.00 fluid ounces per hundred pounds of seed.

Consult your agronomist or contact info@kannargroup.com for additional information on timing, rates and necessity of use.
